

Silicon Carbide Technology

Semitronics Corp.

SMD Package

TO-257 Package

Dual Package

- [Power Rectifiers](#)
- [High Power Rectifier](#)
- [Fast Recovery Schottky Rectifiers](#)
- [Zeners & T.C. Zeners](#)
- [TVS, Transzors, Cells](#)
- [Transistors NPN + PNP](#)
- [MOSFETS & IGBTs](#)
- [Unijunction Thyristors & Triacs](#)
- [3 Phase Bridge](#)

New Silicon Carbide

MOSFETS - Schottky Diodes
Bridge Modules

SMD, TO257, TO-254, TO-258, Power Pack

Semitronics Silicon Carbide Semiconductors Offer:

- Hermetically Sealed Package
- Rugged Construction
- High Surge Ratings
- High Frequency Operation
- Low Capacitance
- High Blocking Voltage
- Aerospace, Military & Industrial devices

[Silicon Carbide Available to STX - STXV –STS Levels](#)

Semitronics is a DSSC Military approved manufacturer of High Reliability Semiconductors for Industrial, Aerospace, and Military applications.

For more information on our other Hi-.Rel semiconductors, please [contact us](#).
