

I.C.'s and Semiconductors Assembled into any Case Style

Semitronics provides packaging solutions for I.C., Digital, Linear and Semiconductor Discrete chips. If there is a device required for your application and it is not available in a package suitable for your manufacturing needs, select the package style you require and Semitronics will provide the device packaged and tested to meet your electrical, mechanical and Hi-Rel screening needs.

- Flatpack
- Plug-In
- SMD & DILs

- TO-3
- TO-5
- TO-8
- TO-18
- TO-39
- TO-41
- TO-46
- TO-56
- TO-254
- TO-257
- TO-258
- LCCs
